

HOBIE SHORT-PROFILE VEST by Stohlquist

This side entry design has set the standard for streamlined pfd fit. Cool mesh side panels and reflective accents. Stretchy neoprene adjustable padded shoulders. Roomy mesh pocket with "D" ring for keys. Ventilated mesh side panels. High waistline cut. Huge arm cutouts and a short waist allow excellent freedom of movement. Extra short length allows easy access to trapeze hook while sitting and does not "ride up" around your neck. Adjustable side straps offer enough size variation for many layers underneath or none! SM / MD / LG / XL / XXL (Colors may vary)

S6142XX (xx = size)

 Small 32" - 36"
 Medium 36" - 40"
 Large 40" - 44"
 XLarge 44" - 48"
 XXLarge 48" - 52"

SAFETY TIP!
LIFE VESTS Get a good, comfortable life vest and WEAR IT! A life vest does you little good stored on your boat, especially if you get tossed into the water and away from your boat. Accidents happen and by their nature, they happen when you are not prepared. A life vest can keep you afloat until you can rescue yourself or you can be rescued by others. In the worst cases when injuries or cold water are involved, your life vest can make all the difference! Be sure everyone onboard your boat wears a life vest too! Pass the word! Federal law now requires that all persons below the age of 13 must wear a life jacket while aboard a boat.

NEW HOBIE INFLATABLE PFD

Light weight and comfortable. Ready when you need it - manual inflation. Extremely lightweight and comfortable. Manual inflator allows for swimming, wading and intentional immersion. Available in Red/Grey or Tan/Grey.

SBV3122YEL 50 to 90 lbs

HOBIE HI-BACK MESH by Stohlquist

This front entry vest was designed just for Hobie. The floatation in the back is up high and away from the harness for less bulk down low. There is a mesh panel across the back. Front zip entry for easy on and off. A zipper keeper to prevent the zipper from slipping down when in use. Large mesh pockets on the front for easy storage and access of small items. Stretchy neoprene adjustable padded shoulders. Ventilated mesh side panels. High waistline cut. Huge arm cutouts and a short waist allow excellent freedom of movement. Short length allows easy access to trapeze hook while sitting and does not "ride up" around your neck. Adjustable side straps offer enough size variation for many layers underneath or none! SMD / LXL / XXL (Mango Yellow or Forest Green)

NEW WOMENS HOBIE HI-BACK by Stohlquist

Many of the same features as the Hi-Back Mesh, but shaped and contoured specifically to fit Women. Foam layering inside the vest is countoured for a better fit. XXS / MLG / PS (Powder Blue)

S6146XX POWDER BLUE (xx = size)

FULL "AUTO" HARNESS For those looking for added back support and comfort while on the trapeze. Great for spending lots of time on the wire. New spreader ratcheting feature allows easy adjustment of harness around hips as well as quick release feature to get out of harness quickly. Crotchless design with neoprene leg straps, adjustable lumbar support, neoprene covers over side buckles and reinforced patch on the seat. Comes with 10" stainless spreader bar that can only be used with this harness. Colors may vary.

1376XX FULL "AUTO" HARNESS (xx = size) (SM,MD,LG,XL)

FULL "AUTO" HARNESS

CONVERTIBLE HARNESS

CONVERTIBLE HARNESS "Converts" easily from a half harness to full harness with the addition of shoulder straps (included). The all around harness for both racers and recreational sailors where comfort, support and mobility are key.

For the recreational sailor the half harness has enough back support to keep you comfortable on the tramp or the trap.

For the racer, just add the shoulder straps for those long days out on the trapeze where extra back support is needed.

Extra stiff back support, padded leg straps / shoulder straps, neoprene covers over buckles and a 10" stainless spreader bar.

It all adds up to keeping you comfortable and having fun on the water. Shoulder straps included with harness. Colors may vary.

1378XX CONVERTIBLE HARNESS

(xx = size) SM [Small/Medium], LG, XL)

SKIPPERS HARNESS

SKIPPERS HARNESS The harness for both racers and recreational sailors where comfort and mobility on the trampoline are most important. For the sailor who spends less time on the trapeze or prefers to "sit up" rather than lean out more. Unique leg strap design combining neoprene and webbing to eliminate chafe.

Neoprene covers over side buckles and a 10" stainless spreader bar.

Reinforced seat. Colors may vary.

1388XX SKIPPERS HARNESS

(xx = size) (SM, MD, LG, XL)

SPREADER HOOK 10" wide black painted, stainless steel hook spreads the load on the waist straps of any harness. Use to update older harnesses for better comfort.

13825

COATED TRAP WIRE SETS Highest quality aircraft stainless wire coated with UV tolerant black or white vinyl coating for all of our wire products. Molded nylon handles are installed at the right place for easy in and out maneuvering. Also available in kits which include the trapeze shock cord.

- 1471W** H16,17,SPORT Pair-White
- 1472W** Above w/ Shockcord (16 only)
- 1471B** H16,17,SPORT Pair-Black
- 1472B** Above w/ Shockcord (16 only)
- 1473W** H18 Pr (1 side)-White
- 1474W** Above w/ Shockcords
- 1473B** H18 Pair (1 side)-Black
- 1474B** Above w/ Shockcords
- 1475B** H14 Pair-Black
- 1476B** Above w/ Shockcord
- 1478B** Getaway Pair-Black

WAVE / GETAWAY TRAPEZE KITS Add a trapeze system to your Hobie Wave or Getaway. Complete with wires (pr), return bungee system, lines, blocks, locks and dog bones. Just add a trapeze harness and you are flying! Wave kit includes adjustment lines with internal shockcords and hull attachment hardware.

- 38140001 WAVE TRAPEZE KIT**
- 37140001 GETAWAY TRAPEZE KIT**

MOLDED TRAPEZE HANDLE Strong and comfortable molded grips are contoured to fit the hand. Wire guide shank keeps wire from cutting between the fingers. This is the "standard" handle on all wires.

2011 Each

REPLACEABLE TRAPEZE HANDLE This simple, rubber padded, all aluminum handle can be installed on any 3/32" wire without disconnecting anything. Just screw the 2 halves together and it's ready to use.

2010 Each

TRAPEZE DOGBONES

These dogbones feature high grade 316 stainless steel with welded construction for superior strength.

- 2001** Standard
- 2002** Keyhole Shape
- 2003** Flexible Dogbone

J & H HANDLES Open design combination dogbone/trapeze handle makes getting hooked and unhooked very simple. Choose a different color for the skipper and crew for easy identification.

- 2004BLK** Pair-Black
- 2004WHT** Pair-White

A DELUXE ADJUSTABLE TRAPEZE RIG

The original trap rig. Adjust your position while you are out on the wire. V-Jam pulley system allows you to compensate for that puff or lull in the wind without coming in off the wire. Comes complete with all blocks, ropes, and swivels needed for one pair.

1203 w/o Dogbones

B STANDARD ADJUSTABLE TRAPEZE RIG

The standard kit includes blocks with removable sheaves, rope, rope locks and stop washers. Can be purchased with #2002 dogbones or without dogbones (for possible use with J&H Handles.)

- 3101** w/Dogbones
- 3102** w/o Dogbones

DOUBLE ADJUSTABLE TRAPEZE

Adjust the level of the entire system, ring and handle. Always have the trapeze "T" handle at the proper comfortable to reach level. Crew can move fore and aft to extremes and maintain efficient and comfortable trapezeing level. Bungee gives constant upwards pull on trapeze ring to ensure that you stay hooked up. Stock trapeze wire must be shortened by approx. 8". Order trapeze rings and bungee separately.

1204 Kit

HARKEN MICRO FIDDLE BLOCK

Superior quality Micro Fiddle Block with V-Jam cleat from Harken. For use with 7/32" to 5/16" (5mm-8mm) line to make adjustable trapeze system.

H244 Each

RAIL RUG Provides excellent footing when out on the trapeze. Kit includes a high quality grade of carpeting which absorbs less water, keeping weight down and reducing mildew. Also included in each kit; industrial grade contact cement (much better than the hardware store variety), brush and easy to follow instructions. For all catamarans.

1671BLK H14/16-Black

16703 Contact Cement-Pt

NEOPRENE RAIL KITS Provides excellent footing while out on the trapeze and cushions the non-skid areas. Eliminates abrasion on your skin or clothing because it sheds sand. Zero water retention. Made out of 1/8" thick knobby black neoprene. Kit includes industrial grade contact cement, brush, and instructions for easy installation on any boat. Race strips are for hull decks rear of trampoline frame. H16 kits are full wrap around as used in Worlds boats.

16706 H14 / H16 Kit

16707 Race Strips-Pair

16708 H18 Kit

(H18 Die Cut - Shown Above)

FOOT STRAPS / CARRYING HANDLES

Stop that unexpected "JOURNEY TO THE BOW." Add foot straps for the skipper and crew for security on those screaming reaches. Also, just right for lifting the boat instead of dragging it up the beach.

1241 Pair

NON-SKID Low profile, white tape provides excellent foot grip for trapezing. Blends in with standard white hull color to the point it is nearly invisible. Tape is adhesive backed for easy installation.

16713 2" x 20'

REMOVABLE SHEAVE TRAP RIG BLOCK

This is the block we include in our basic trap rig kits. No need to cut wires to install this block. Simply remove the clevis pin that acts as the sheave axle, slide the sheave out of the frame, place the frame through the trap wire thimble and reinstall the sheave.

3103 Each

TRAP STAY An easy answer to wandering wires and "who's whose" confusion on the Hobie 16. Mount these little keepers under the side rails and drop the shockcord in. Works great to keep everything in its place.

176 Pair

ROPE LOCK Use on trapeze rope to make your trapeze system adjustable.

61530000 Each

TECH TIP!

TRAPEZING While sitting on the edge of the boat, attach the trapeze dogbone to the trapeze hook on your harness. Grab onto the trapeze wire's handle with your forward hand. Place your other hand on the hull behind you. Using your hands for balance ease yourself off the side of the boat and place your forward foot on the rail. Push yourself away from the boat with your rear hand and forward foot till you can place the rear foot on the rail. Stand on the rail of the boat with your weight on the trapeze wire. Keep your forward leg more rigid and aft leg slightly bent. This position will help keep you from falling forward.

While learning to trapeze, beginners should set their trapeze height just at the rail level or slightly above. This will make it easier to get in and out. Keep your legs spread several feet apart for balance. As you get used to the feel of trapezing you can begin to lower your trapeze height and move your legs closer together. Once you become an expert on the trap wire, your proper body position should be parallel to the deck with your feet right next to each other.

TRAPEZE RIG RETURN SYSTEM Custom system with double-length shockcord reduces the unpleasant forward pull when you're trapped out off the stern on a reach. It also prevents breakage of the shockcord when you stuff a lee bow and the crew takes a spin around the forestay. All required hardware is included.

14709 H16 Kit
