

Mirage Outback

The Hobie Mirage Outback kayak is powered by Hobie's patented hands-free MirageDrive pedal system. It comes with molded-in rod holders and trays, storage compartments, a tackle box, cooler, anchor system, detachable wheels for carting and more. Billy Aas, Olalla, WA: *"The Mirage Outback covers a lot of water virtually effortlessly. Seat adjustability is excellent and deck space is laid out with plenty of room for tackle boxes and rods."*

Rory Samson, Williamsburg, VA: *"This kayak's pedal-driven propulsion is quieter than an electric trolling motor, letting me get even closer to fish. I was able to pedal for miles without fatigue. The tackle tray storage area below the front seat is great."*
