Hobie Mirage Pro Angler 12

The new lightweight, more compact, Pro Angler 12 is the most versatile fishing boat we've ever designed. This 12 foot hull sports a 500 pound weight capacity and is packed full of "must have" features that kayak anglers demand. From lakes to rivers to open ocean, this boat has no boundaries – stand and fish with incredible stability, securely store four rods horizontally, two vertically and access your tackle with ease. Integrated dual-steering controls for left or right handed accessibility while under way. Vantage seating provides ultimate comfort and adjustability in a lightweight, easily removable form, along with Boa® system lumbar support technology. "Lowrance Ready" installation system makes adding a fishfinder a breeze. Powered by our patented MirageDrive® with Turbo Fins, the Mirage Pro Angler 12 has got the giddy-up! Looking for an affordable, durable, lightweight, ultra-stable, "built-for-anglers" personal watercraft?

Hobie Mirage Pro Angler 12 – Enjoy the Ride!

4. MirageDrive

Hobie's MirageDrive was born from the theory that it's easier to push something with your legs (big muscles) than it is to pull something with your upper body (smaller muscles). On Hobie Mirage series kayaks, traditional paddles are included but not needed. Instead, two pedals, mounted on levers just forward of your seat, are attached to powerful underwater fins via the MirageDrive's sleek, lightweight design. When pedaled, these flexible fins assume the shape of a propeller blade, providing forward motion with each pedal stroke. And because the fin inverts its shape on the opposite backstroke, you easily generate equal power on both sides, keeping your boat tracking evenly and moving quickly. Plus, the fins "feather" with water flow when they're not being used to reduce drag. They can also fold up flush against the hull for exploring skinny-water spots or for beaching. Simply slide the MirageDrive unit into its trunk, lock it in place with its "Click and Go" system and you're off adventuring, with your hands free.

5. Under Seat Tackle Storage

Under seat tackle box storage (holds two large Plano® boxes – one included).

6. Large Rectangular hatch w/ Pivoting Tackle Management System

Large Twist and Seal rectangular center hatch with pivoting tackle storage (holds two medium Plano tackle boxes – included).

7. Lowrance® Ready

"Lowrance Ready" built-in transducer mount with pre-installed through-hull cable plugs. Install your fishfinder in minutes without gluing transducers or drilling holes in your kayak, plus you get the most accurate readings from your sonar or DSI.

8. Replaceable Mounting Boards

Provide a solid and easy-to-reach platform for installing accessories like fishfinders, rod holders, cameras, and the H-Bar which makes getting in and out of your boat easy and provides added support when standing.

9. Horizontal Rod Storage

Safely and conveniently stores up to four rods, allowing unobstructed casting.

10. Large Front Hatch w/ Removable Liner

Large-opening storage area offers easy access for storing fish or ice and can be removed for cleaning. Or if you like, store your jacket, extra tackle and food for the day.

11. Anchor Trolley System Ready

Eight brass inserts strategically placed fore and aft on the right and left sides of the hull.

12. Front & Rear Carrying Handles

Ultra-comfortable carrying handles designed to make transport a breeze.

1. Rudder Access

An easy-to-use, fingertip-operated rudder makes steering a snap from either hand. To engage or disengage the retractable rudder system, simply pull the T-shaped control handle.

2. Livewell Ready Cargo Area

Large cargo area with Bungee® tie-downs. "Hobie livewell ready".

3. Vantage Seating

- Ultimate comfort control with 4-way adjustability
- Two seating positions: Extra Vantage (optimum visibility), and Low (ultimate stability), quickly switch on the water without getting up
- Quick and easy-to-adjust bottom and back support by twisting the armrests
- Wide range of lumbar support featuring Boa® technology
- High strength, lightweight, aircraft aluminum frame construction
- Breathable, quick dry suspension seating featuring Hobie Comfort-Mesh
- Quick and easy installation and removal, secure and remove in seconds, doubles instantly as a shore chair
- Padded armrests
- Flip-up seat for access and standing room
- Folds down and secures for easy transport
