

#1811 - 1813 - THE SNORKEL.

#1811 - 1813 - Page 1 of 1

The Snorkel is a cover for the jib sail and is used with the jib furled on the forestay.

Installation & Use:

1. The Snorkel can be raised with the main halyard, however, a small block and lightweight cord (Snorkel halyard) is included. The block can be attached to the mast tang and both ends of the Snorkel halyard tied to the mast cleat or mast rotation arm on the H18.
2. Tie one end of the line to the eyelet in the Snorkel.
3. Raise the Snorkel and zip as done when raising the jib. Keep Snorkel halyard inside Snorkel. Tie end of Snorkel halyard to forestay adjuster.
